# Braywood CE First School

'Aspire, Learn, Achieve together'

Our Vision

2023-26

'From tiny acorns, mighty oak trees grow, watered and nurtured by God'

## Aspire Learn Achieve together

We aspire for all our children to become confident, emotionally resilient, and compassionate individuals who achieve personal excellence through strength of character and a love of learning.

- To make Braywood the best place of excellence in which to learn and to acquire wisdom by providing a stimulating and challenging creative learning environment that motivates and inspires confident, independent, and ambitious learners.
- To provide a broad and balanced curriculum which gives children resilience in the acquisition of knowledge and practice of the basic skills a strong foundation on which to build.
- To celebrate personal achievement or talents and encourage an enthusiasm, strength of determination and enjoyment for lifelong learning together with an appreciation of success.
- To provide a happy, safe, and loving environment based upon our Christian Vision where integrity and respectful behaviours can say what they believe in and know we will be listened to by a community.
- To allow all children to develop their sense of **faith** through the teaching of all religions (and none) so everyone is comfortable in the knowledge that they embody our twelve Christian Values regardless of their race, religion, gender, or background.
- To provide opportunities for all unique individuals in our school to be valued, develop a personal understanding and self-discipline of their mental and spiritual health, and have time to be themselves.
- To teach our curriculum on the global stage so that children can appreciate and respect our diverse world and have the courage to take responsibility for our role within it -a strength and determination that they can make a difference.
- To understand the importance of a healthy and active lifestyle and encourage an interest, enjoyment and respect for our immediate environment and the world around us for a sustainable future.
- To promote the well-being of all through an inclusive, empathetic, and nurturing environment where we share a mutual understanding of our goals and families and friends learn together.
- To be entrepreneurial and persevere in all that we do, so that we will be able to achieve our dreams.

### Children's Mission Statement

Even though we are different, together we can make a masterpiece.

Our Vision is based upon our Christian Values and Biblical Text

'For with God, nothing is impossible' Luke 1:37

Faith, Self-Discipline, Integrity, Forgiveness, Determination, Courage, Friendship, Family, Love, Respect, Resilience, Ambition

# Braywood Long Term Curriculum

	Topic including	Understanding the World	Physical Development	Expressive, Art & Design	PSED	RE	Extra- Curricular	English
Year F Term 1	Marvellous Me!	Autumn  Themselves Similarities & differences between themselves & others  Computing Computers giving us information	Correct Tripod Grip Basic hygiene and safety needs	Singing Harvest songs  Exploring Sounds  Playdough  Simple Construction	SEAL - New Beginnings Making friends Being kind and playing nicely	Creation Harvest	Harvest Festival Mum's & Dad's into School	Trouble on the Farm Old MacDonald
Year F Term 2	Fun on the Farm	Farm Animals Where they live, what they give us how to care for them Growing	Spatial awareness	Singing Christmas songs Christmas Cards  Baking – Bread & Gingerbread	SEAL - Getting on and falling out Relationship Feelings & Emotions	Diwali Christmas	Christmas Service & Nativity at Church	Trouble on the Farm The 3 Billy Goats Gruff
Year F Term 3 & 4	What Hat Shall I wear?	Caring for the environment  Winter & Spring  Understanding the change of the seasons  Visits by Occupations  Vets, Health Professionals, Fire & Police  Refraction - Rainbows	Correct Letter Formation Ball Skills	Singing Easter Songs  Designing hats  Easter Tomb Biscuits	SEAL - Going for Goals SEAL - Feels good to be me	Epiphany Chinese New Year Lent Easter	Easter Concert  Easter Bonnet Parade  Ducklings	Hetty's Hat Shop The Mysterious Egg?
Year F Term 5 & 6	Exploring our World  Child Initiated Topics!	Computing Beebots  Healthy Eating Healthy Eating week. Keeping Fit  Child Initiated Topics – Dinosaurs? Revisit Occupations?	Co-ordination Sports Day	Adding Instruments to Songs Natural Art	SEAL - Relationship SEAL - Say No to Bullying SEAL - Changes Transition to Yr. 1	Learning from Stories Special Places Places of Worship different faiths	Trip to farm Summer Fair	Lost in the Garden

	Topic including	Science	Computing	History/ Geography	Art/DT	PE	Music	RSE & PSHE	RE	Extra- Curricular	English / French
Year 1 Term 1	Secrets about Me	Parts of Animals including Humans Visit from a nurse Nocturnal animals and their lives in the dark Visit a real owl	Safe on the Internet  SMART and safe learners  Introduction to modelling  Play robots through mechanical me	Places people and the past, Places in UK Barnaby Bear visits Where animals live? Endangered species	Marvellous Me Draw and sculpt ourselves e.g. ssilhouette, camera, black/ white, woodwork & stick people Portraits by Artists	Gymnastics Flight, bouncing, jumping and landing  Work with WSP and PE groupings  Whole school PE tournament	Singing Harvest songs  Exploring Sounds  Sing songs in different languages	SEAL - New Beginning  Keeping staying Safe & Keeping staying Healthy  Computer Safety	Ways of learning Christianit y Visit to Church at Harvest Writing prayers	Forest experience at Braywick Park  Harvest Festival  Visit to the Theatre	Wonderful Night Sky  Transition Unit Meet Me  French songs and register
Year 1 Term 2	Let's Celebrate	Changing seasons and weather Light, dark Space, starts, etc	Pictograms On a variety of medium  Communicat ion and using text Link to non- fiction work	Where celebrations take place and how have they changed over time. Birthdays, weddings,	Draw and sculpt religious artefacts using clay Pictures of Night Sky	Games  Throwing, catching and aiming  Work with WSP and PE groupings	Exploring duration Listening to music for celebrations e.g. wedding march, Handel's 'fireworks'	SEAL - Getting on and falling out Relationship Feelings & Emotions Bullying	Judaism  Celebration of the past including celebrations from other cultures	Visit to All Saints Church to practically share 4 different celebrations Nativity	Wonderful Night Sky Links to light festivals, fireworks night etc. French songs and register

Electricity Investigate these simple electrical circuits, switches, buzzers etc.  Design Xmas decoration	Using Search technology  Data Program using Scratch	Egyptians Famous Egyptian pyramids, Art, inventions, and way of life. Compare light then and now	Egyptian Art & DT  Recreate Egyptian Art effects  Make a shaduf in DT	Dance – theme Egyptians Games – hockey Work with WSP and PE groupings	Explore composing & songs  Learning music for Egyptians & Christmas Concert	SEAL - Getting on and falling out Relationship Feelings & Emotions Bullying	Christianit y What is the Trinity? Why was light important in religions past and present?	Visit to Ufton Court  Visit Eton College  Lead the Nativity in Church	Egyptian life  Links to topic including descriptive accounts  French – basic facts
Year 4 Term 4	I love where I live – Windsor	Sounds  Identify how sounds are made, how sound travels and changes through pitch, volume etc. Sounds of nature.	Use logical reasoning to explain simple algorithms  Write, debug program Google Maps	Fifield past and present  Investigate how Fifield has changed  Visit to Fifield with guided tour.	Life studies and still life Sketches of the local area. Sewing with the theme of Windsor	Orienteering Linked to local study  Gym – balance, roll & sequences	Instrumen ts in the orchestra Steel drums led by Berkshire Maestros Exploring melodies and scales	SEAL - Going for Goals & Good to ne Me RSE Being Responsible	Learning about believing  Religious aspect of learning in a C of E school	Easter Concert Tour of Fifield and talk about local History	Space Tourism  Write about life in our local area  French – family & world
Year 4 Term 5 & 6	Chocolate	States of Matter Compare solid and melting chocolate Water Cycle	Data collections & Information Various collection of information	Chocolate Where and how is chocolate manufactured and how does it find its way to the shops.	Packaging  Design packaging for chocolates and make a chocolate gift.	Cricket, Rounders & Golf Athletics and Sports Day Whole school tournament	Sound / colours Exploring theme of water cycle Summer Concert on stage	SEAL Relationship & Change  RSE Money Matters	Sharing Faiths  And questioning more about Christianity	Summer Fair  Leavers  PGL Trip 3 days and 2 evenings in activity camp	Plays Play for Summer Concert  French – communication

# Curriculum Statement

At Braywood we are fortunate to have a rich local environment in Windsor and the surrounding areas. We have a rich and diverse school community where most parents support and engage in our curriculum. As a result, we have built an inspiring, broad, balanced, and coherent curriculum which provides life-changing opportunities embedded into its planning.

The subjects below are taught in a combination of discrete and topic-based methods and interwoven to ensure that the children can see the pertinence of their studies. Every subject spiral in its approach and the introduction of skills and knowledge through a carefully planned learning progression. It is important that our work on the curriculum is sustained, is relevant, and reflects our vision statements. Our curriculum offers parity; all children can access the content and all children can be offered appropriate continuity, progression, or personalised learning experiences Including providing opportunities for mastery and depth.

We expect all children to success, so we aim to provide a strong foundation of knowledge, skills and understanding upon which to build. We have a set of learning behaviours established through educational theory and their philosophies maintain the behaviour for learning. The curriculum is designed for children to make as many neural links as possible to deepen their understanding. Children are offered learning experiences and language proficiencies which build upon prior learning, extend this understanding to a deeper level but help them make links to other areas of knowledge, skills, or conceptual learning.

Each topic offers trips, visitors, and virtual experiences to stimulate the learner and whole school events such as literacy, maths, science, computing, or entrepreneurial days provides a real learning buzz. PSHE is brought alive though forest school experiences and the Year 4 have a residential trip. We have Pupil Parliament Days to hear the 'voice of the child' together with a whole school PE tournament. We attend inter-school tournaments and perform whole school concerts. We invest heavily in specific life skills through our curricular programmes such as Christian leadership opportunities, spiritual reflections, first aids course, sustainable issues and global warming; a child's cultural capital. and British Values.

At the bedrock of all we do we want children to be engaged in their learning. We aim to make learning at Braywood as fun as possible. If a child is involved in the task, understand what they are learning, and believes that they are succeeding, there is far more opportunities for a child's self-esteem to grow and personal goals to blossom. Life skills, strength of character, courage and being inspirational are fostered through our curriculum to enable each child to leave our school ready for the next challenges.

# English and Mathematics

# Schemes used in these subjects are:

Read Write Inc Reading Scheme, SPAG
Oxford Owl Resources
A wide variety of Reading books using various schemes and genres challenging stereotypes
Electronic Reading Scheme – Bug Club & Junior Librarian
PM Reading benchmarking
Big Write & Big Writing Adventures
Abacus Maths
Singapore Maths
Finance Scheme

#### **Generic Aims of our English Curriculum are to:**

- read easily, fluently and with good understanding
- develop the habit of reading widely and often, for both pleasure and information
- acquire a wide vocabulary, an understanding of grammar and knowledge of linguistic conventions for reading, writing and spoken language
- appreciate our rich and varied literary heritage
- write clearly, accurately and coherently, adapting their language and style in and for a range of contexts, purposes and audiences \* use discussion in order to learn; they should be able to elaborate and explain clearly their understanding and ideas are competent in the arts of speaking and listening, making formal presentations, demonstrating to others and participating in debate.

## Early Reading and Phonics

As outlined by the Ruth Muskin program.

Our goal is for the children to:

- 1. Work out unfamiliar words quickly including new vocabulary and names.
- 2. Read familiar words (ones that have been taught) speedily.
- 3. Read texts that include words they have been taught fluently.

We have a range of appropriate reading materials across the whole curriculum. The above expectations are for the lowest 20% of children, the vast majority will exceed this.

	Little Acorns (Foundation) can:	Mighty Acorns (Year 1) can:	Rising Oaks (Year 2) can:
End of Autumn 1	Read some single letter Set 1 sounds	Read Purple Storybooks; read some Set 2 sounds	Read Blue Storybooks
End of Autumn 2	Read all Set 1 sounds; blend sounds into words orally	Read Pink Storybooks; read all Set 2 sounds	Read Blue Storybooks with increasing fluency and comprehension
End of Spring 1	Blend sounds to read words; read short Ditty stories	Read Orange Storybooks; read some Set 3 sounds	Read Grey Storybooks
End of Spring 2	Read Red Storybooks	Read Yellow Storybooks	Read Grey Storybooks with fluency and comprehension
End of Summer 1	Read Green Storybooks; read some Set 2 sounds	Read Yellow Storybooks; read all of Set 3 sounds	Access Comprehension and Spelling programmes.
End of Summer 2	Read Green or Purple Storybooks	Read Blue Storybooks	Access Comprehension and Spelling programmes.

Extending character and setting descriptions</li> <li>Using inference to develop understanding</li> <li>Developing character and adding humour through dialogue and description</li> <li>Punctuating dialogue correctly. Using punctuation for effect</li> <li>Using apostrophes of possession for plural nouns</li> <li>Understanding form, purpose and audience. Using a clear story structure</li> <li>Understanding the writing process</li> </ul>	Chocolate Writing settings of the Rainforest, developing character, settin Summer Playscripts	Spelling Overview Terms 5 & 6 SPAG lessons

## Maths Scheme of Work

#### Generic aims of our Maths Curriculum are:

- become fluent in the fundamentals of mathematics, including through varied and frequent practice with increasingly complex problems over time, so that pupils develop conceptual understanding and the ability to recall and apply knowledge rapidly and accurately.
- reason mathematically by following a line of enquiry, conjecturing relationships and generalisations, and developing an argument, justification or proof using mathematical language
- can solve problems by applying their mathematics to a variety of routine and non-routine problems with increasing sophistication, including breaking down problems into a series of simpler steps and persevering in seeking solutions.
- Using real life skills including money are integrated into the curriculum to deepen understanding including weather, days of the week etc, maps positions etc bar charts, local studies involve positional language including position, angles and directions, directional language using roamers and investing money.

#### **Foundation Stage**

Early Years cover the basics in all numbers in a hands-on practical way inside and outside the classroom to prepare the children for Year 1. They use the Abacus scheme to cover counting, addition and subtraction, space, shape and measure and the start of recording their findings.

	YEAR ONE		YEAR TWO		YEAR THREE		YEAR 4

Term 3				•			
Singapore	Abacus	Singapore	Abacus	Singapore	Abacus	Singapore	Abacus
Term 3	Abacus  Place value using a variety of images to embed an understanding of 2-digit numbers and place value, including finding 1 more / less.  Number facts embedding a reliable recall of number facts, then using these to solve simple word problems.  Addition and subtraction using known number facts to add and subtract using unit patterns. 3D shapes; time naming and identifying 3D shapes and their properties, and rehearsing days of the week and months Numbers and counting; fractions counting, extending this skill to include counting in 2s, 5s, 10s and identifying patterns; counting is related to estimation and then to halves and quarters as equal parts of a whole.		Place value understanding place value in numbers to 100 and beginning to use this to add and subtract 2-digit numbers. Number facts; addition and subtraction revising, then using, bonds to 10 in addition (counting on, bridging 10), and subtraction (finding a difference, extending to calculating change). Number facts; addition and subtraction revising, then using, bonds to 10 in addition (counting on, bridging 10), and subtraction revising, then using, bonds to 10 in addition (counting on, bridging 10), and subtraction (finding a difference, extending to calculating change). 3D shapes; time identifying 3D shapes and their properties, including naming 2D faces; and then rehearsing telling the time on analogue and digital clocks. Place value extending understanding of place value to include landmarked lines and estimation.				Place value; addition and subtraction ensuring a robust understanding of place value and numbers to 10,000, including counting in equal steps; this understanding is then used to underpin mental addition and subtraction.  Subtraction; multiplication written calculation methods underpinned by a secure understanding of place value: vertical subtraction and multiplication problems involving money.  Division; fractions mental multiplication and division strategies, which underpin the work on proper fractions that follows, including finding non-unit fractions of amounts, equivalent fractions and simplifying.  2D shapes properties of 2D shapes, including angles, parallel and perpendicular lines, and symmetry.  Mental calculation strategies the relationship between the 4 operations; these important inverse relationships are linked to

YEAR ONE Y		YEAR TWO		YEAR THREE	Ē	YEAR 4	
Term 5							
Singapore	Abacus	Singapore	Abacus	Singapore	Abacus	Singapore	Abacus
Numbers to 100 Volume and capacity Mass Fractions Money	Place value consolidating understanding of 2-digit numbers, representing these in different ways, and partitioning into 10s and 1s.  Addition and subtraction revision of number facts and using these to solve additions and subtractions involving 1- and 2-digit numbers.  Addition and subtraction revision of number facts and using these to solve additions and subtractions involving 1- and 2-digit numbers.  Measures weight and capacity, comparing and using uniform non-standard units to measure both; information is recorded in block graphs for ease and clarity.  Fractions; money doubling and halving numbers and recognising halves and quarters of shapes; and on recognising coins and solving money problems.	Addition & subtraction; adding with renaming, subtracting with renaming, addition of 3 numbers Mass; measuring comparing, solving word problems Volume; comparing, measuring in litres and millilitres, solving word problems Temperature; reading and estimating temperature Fractions; finding part of a set, finding part of a quantity	Place value securing a robust understanding of place value, including adding and subtracting 2-digit numbers by counting on/back in 10s and 1s. Addition and subtraction using number facts to solve additions and subtractions, including adding several numbers and counting up using complements to the next multiple of 10 to find a difference. Measures; statistics and data using non-standard and standard units to measure and compare weights and capacities; and using this context to revise the use of block graphs. Multiplication, division and fractions doubling and halving as inverse operations, and relates division to fractions, including finding halves, quarters and thirds of amounts.	Mass Further multiplica tion and Division (multiplyi ng 2-digit numbers without & with regroupin g) Drawing & reading picture and bar graphs	Addition and subtraction securing understanding of addition and subtraction and rehearsing sound mental strategies, extending to adding and subtracting fractions.  Multiplication and division understanding and skills in division & multiplication, including using tables facts to solve scaling problems, multiplications using the grid method, and divisions using chunking.  Statistics and data; weight drawing and interpreting pictograms and bar graphs with different scales and using these to record and analyse data in the context of measuring weights.  Addition and subtraction mental and written addition and subtraction, including mental strategies, column addition, subtracting by counting up, and choosing methods to solve problems	Counting in Hundredths Writing hundredths Writing Decimals Writing fractions as decimals Comparing & ordering decimals) Area Roman numerals	Place value and decimals consolidating place value in 4 & 5-digit numbers, extending to decimals; including multiplying and dividing by 10 and 100, placing numbers (including negative) on lines, adding & subtracting powers of 10.  Place value and decimals consolidating place value in 4- and 5-digit numbers, extending to decimals; including multiplying and dividing by 10 and 100, placing numbers (including negative) on lines, adding & subtracting powers of 10.  Multiplication and division extending knowledge of times tables, using this to develop understanding of harder written multiplication algorithms; and on division as the inverse of multiplying Area and perimeter; 2D and 3D shapes calculating perimeters and areas of shapes, and on properties of 2D and 3D shapes.  Fractions and decimals developing and enhancing the concept of decimal number, including relating decimal fractions to proper fractions and equivalents.

# Curriculum Map for Religion and World Views

RE is taught through discrete lessons, a Celebration Term where RE is the predominant driver for learning and through our writing programme. We follow the Pan Berkshire Syllabus, Discovery RE and the Christianity Scheme, Understanding Christianity, recognised by the Oxford Diocese. The 4 themes support the vales of our vision and seasonal RE plans are available. Various places of worship, inviting visitors into school and performing a Nativity/Easter Concert in St Michael's Church.

## PE Scheme of Work

To develop the physical and emotional development of the whole child through head, hands, and heart.

- Applying Christian values of Ambition, Self-discipline, Trust, Forgiveness, Determination, Courage, Respect, Love, Friendship Family, Resilience & Faith
- Develop competence to excel in a broad range of physical activities through sustained practice to develop motor competency and growth mindset.
- To be physically active for sustained periods of time to develop physical strength.
- To engage in competitive sport and activities and think creatively, to problem solve, make decisions, work as a team.
- To lead a healthy and active lifestyle and understand the reasons why this is important.

	Key Stage 1	Key stage 2
KS1 & KS2 Skills	<ul> <li>Master basic movements including running, jumping, throwing, and catching as well as developing balance, agility, and coordination, and begin to apply these in a range of activities</li> <li>Participate in team games, developing simple tactics for attacking and defending.</li> <li>Perform dances using simple movement patterns</li> </ul>	<ul> <li>Use running, jumping, and catching in isolation and in combination</li> <li>Play competitive games, modify where appropriate (e.g., cricket, badminton, football, hockey, netball, rounders, basketball &amp; tennis) and apply basic principles suitable for attacking and defending.</li> <li>Develop flexibility, strength, technique, control, and balance (e.g., through athletics and gymnastics)</li> <li>Perform dances using a range of movement patterns</li> <li>Take part in outdoor and adventurous activity challenges both individually and within a team</li> <li>Compare their performances with previous ones and demonstrate improvements to achieve their personal best</li> <li>Swim competently, confidently and over a distance of at least 25 metres</li> <li>Use a range of strokes effectively and understand safe self-rescue procedures.</li> </ul>

## Science Scheme of Work

### Our aims in science are to underpin the knowledge requires to be a successful Scientist. which are to:

- develop scientific knowledge and conceptual understanding through the specific disciplines of biology, chemistry and physics
- develop understanding of the nature, processes and methods of science through different types of science enquiries that help them to answer scientific questions about the world around them
- are equipped with the scientific knowledge required to understand the uses and implications of science, today and for the future

Year	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
R	•			lorations in 'The World Around and connect with their natura	•	and animals, minibeasts,
	Secrets about Me	Let's Celebrate	Time	Detectives	Our World,	Environment
1	Parts of Animals – compare and describe a variety of animals Name, draw and label basic parts of human body and identify our basic senses	Changing seasons – observe changes across the four seasons and observe / describe weather associated with the seasons and how day length varies.	Link to the uses of mate	basic physical properties.	Types of Animals – Identify and name a variety of animals e.g. fish, birds, mammals	Plants – Identify and describe the basic structure of common plants and describe basic structure.
Skills	<ul><li>Observing close</li><li>Using their obs</li><li>Holidays – Great</li></ul>	Celebrations 'It's great to	performing simple tests,	-	Hidden Homes &	Hidden Homes &
2	Health Eating- Find out and describe how plants need water, light and a suitable temperature to grow and stay healthy.	he alive'  Animals incl. humans - Notice how animals have offspring which grows into adults, what are basic needs of animals / humans for survival and describe the importance of exercise, eating well, sleep, hygiene.	suitability of a variety o the shapes of solid obje Links to toys	entify and compare the f everyday materials. Explore ects by bending, twisting etc.	Habitats  Habitats – explore differed dead and inanimate thin how they provide needs  Name a variety of plants simple food chains. Planthow seeds and bulbs ground sustainability key skills a gardening and protection	gs. Identify habitats and for different animals. and animals and explore ts – Observe and draw ow into mature plants.
Skills						

	Celebrations – where I fit into my World	Romans Veni Vidi Vici	Romans Veni Vidi Vici	A World of Difference	Our Active Planet
3	Animals including humans Skeleton, muscles, and nutrients	Light – that dark is the absence of light, shadows are formed by opaque objects, that light is reflected off some surfaces and that the light from the sun is dangerous  Sustainability key skills is energy conservation.	Forces and Magnets – compare forces and magnets, look at qualities of magnets and how Earth's forces can make great changes.	Parts of Plants – Identify and describe the functions of different parts of flowering plants, roots, stem etc. Explore plant life, their life cycle and how water is transported within plants.	Rocks and Soils – compare and group different types of rocks on the basis of physical properties.  Describe how fossils are formed and recognize soils are made from rocks and organic matter.  Link to Pompeii  Sustainability key skills are water and energy management and climate change / protecting the environment.
	Brainwaves	Egyptians F	tule OK!	I love where i live - Windsor	Chocolate Yum Yum
4	Animals including humans – describe basic parts of the digestive system, function of the teeth and construct a food chain.  Links to healthy lifestyles	Electricity – Identify comme electricity. Construct a variwith all or some of the follobulbs, switches and buzzers conductors and insulators.  Link to Design Technology  Sustainability key skills are conservation.	ety of simple circuits owing – cells, wires, s. Recognise common	Sound – Identify how sounds are made (vibrating) and that vibrations travel through air. Find patterns in pitch, volume and nature.	States of Matter –compare and group materials (solid, gas and liquid), observe changes in state when they are heated and cooled and identify parts played by evaporation and condensation. Water cycle  Link to chocolate  Sustainability key skills are water conservation, recycling and climate change / protecting the environment.
Skills for Y3 & Y4	<ul> <li>Setting up simple enquiries, comparative and fair tests</li> <li>Making systematic and careful observations and, where appropriate, taking accurate measurements using standard units, using a range of equipment</li> </ul>				ts using standard units, using a range of equipment, stions and tables.

# Computing Scheme of Work

The aims of Computing is to provide the skills to prepare our children for the 21st Century in order that children ...

- can understand and apply the fundamental principles and concepts of computer science, including abstraction, logic, algorithms and data representation
- can analyse problems in computational terms, and have repeated practical experience of writing computer programs in order to solve such problems
- can evaluate and apply information technology, including new or unfamiliar technologies, analytically to solve problems
- are responsible, competent, confident and creative users of information and communication technology.

Developing a simple Producing a Wiki educational game I can use technology I can use Data I can use and I can use a Wiki to I can use an I can use film to I can responsibly and programming using understand HTML to express my thoughts electronic form of present respectfully Scratch. programme creating music electronically Design, write and debug programs the accomplish specific goals, including controlling or stimulating physical systems; solve problems by Skills for KS2 decomposing them into smaller parts Use sequence, selection and repetitioning programs, work with variables and various forms of input and output. Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and pictograms Understand computer networks including the Internet. How they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration. Use search technologies effectively, appreciate how results are selected and ranked and be discerning in evaluating digital content. Select, use and combine a variety of software (including Internet services) on a range of digital devises to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting information and data. Us technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour, identify a range of ways to report concerns about content and contact.

## French Scheme of Work

### Learning a language is a key skill. We aim to:

- understand and respond to spoken and written language from a variety of authentic sources
- speak with increasing confidence, fluency and spontaneity, finding ways of communicating what they want to say, including through discussion and asking questions, and continually improving the accuracy of their pronunciation and intonation
- write at varying length, for different purposes and audiences, using the variety of grammatical structures that they have learnt
- discover and develop an appreciation of a range of writing in the language studied.

FIRST YEAR (2019-2020)		
Term 1	Term 2	Term 3
Greetings	Food and drink	Weather
Colours	Café – conversation and how to order	Seasons
Numbers (1 to 20)	Working towards French breakfast (acted	The Family
Days of the week	out)	Age (Quel age as tu?)
Months of the year		
Second year (2020–2021)		
Term 1	Term 2	Term 3
Recap greetings	In my pencil case	Food and drink (recap and add new
Numbers (1 to 50)	Clothes	vocabulary)
Body parts	Sports	Café – recap on conversation and how to
Animals	Recap colours	order French tea at a café (acted out)

### **Skills** - Pupils should be taught to

- Listen attentively to spoken language and show understanding by joining in and responding
- Explore the patterns and sounds of language through song and rhymes and link the spelling, sound and meaning of words
- Engage in conversation, ask and answer questions, express opinions and respond to those of others, seek clarification and help
- Speak in sentences, using familiar vocabulary, phases and basic language structures
- Develop accurate pronunciation and intonation so that others understand when they are reading aloud or using familiar words and phases
- Present ideas and information orally to a range of audiences
- Read carefully and show understanding of words, phrases and simple writing
- Appreciate stories, songs, poems and rhymes in the language
- Broaden their vocabulary from memory, and adapt these to create new sentences, to express ideas clearly
- Write phrases from memory, and adapt these to create new sentences, to express ideas clearly.
- Describe people, places, things and actions orally and in writing

# រារា Music Scheme of Work រារា

CLASS	AUTUMN TERM	AUTUMN TERM	SPRING TERM	SPRING TERM	SUMMER TERM	SUMMER TERM
Reception	Beat and tempo Learn range of songs including 'My turn, your turn', 'Hello' and 'Head, shoulders knees and toes' in English and French. Use Charanga for warm-up activities.	High and low Learn range of songs including 'Jack-in-the- box' and 'Little Mousie Brown'. Introduce glockenspiel and also range of percussion instruments.	Structure Use action songs to reinforce such as 'Five wonky bicycles', Supermarket song and 'Don't drop litter'.	Texture Learn to sing 'I'm walking like a robot' and add actions.  Exploring instruments – accompany a song with instruments e.g. Braywood School had	Loud and quiet Learn about dynamics in music. Learn to sing 'There's a quiet caterpillar on a leaf', 'Our tap drips' and 'Storm' song. Continue to add instruments as an accompaniment to	Timbre Learn to sing 'What can you see?', 'What can you hear?' and 'Teddy bear, teddy bear'. Add actions and/or instruments where appropriate.
	Harvest Festival production 'Big red combine harvester' song (links to topic on 'Farms') added to 'Harvest Praise'	Christmas concert First opportunity for the children to perform in a church		a Reception band ee- i-ee-i-oh (to tune of Old McDonald)  Easter concert	songs.	
Year 1	Exploring sounds  Harvest Festival production – 'Harvest Praise'  Use Charanga for warm-up activities	Exploring duration  Listening to music for Celebrations (link to topic) such as 'Wedding march', Stevie Wonder 'Happy Birthday', Handel's Firework music.  Christmas concert	Exploring pulse and rhythm  Link use of instruments to Science topic (Materials); ask pupils to identify material instruments made of.	Exploring pitch  Demonstrate on glockenspiel to show changes in pitch. Learn range of songs with low and high pitch.  Easter concert	Exploring instruments and symbols  Learn 'Emerald Crown' songs to link with topic on Our World/Environment. Add musical accompaniment.	Exploring timbre, tempo and dynamics  Compose music for 'Treasure Island' performance
Year 2	Long and short – exploring duration  Use Charanga for warm- up activities Learn range of songs including 'Tinga layo' and 'Mi caballo blanco'  Harvest Festival production	Pulse & Rhythm  Move to music with actions to explore pulse and rhythm  Learn songs including 'Someone's in the kitchen'  Christmas concert	Mainly pitch  Explore tuned and untuned instruments and link to Science topic (materials)  Learn songs about toys to link with topic (Victorian toys)	Instruments & Symbols  Learn songs and add instrumental accompaniment e.g. for 'Hairy scary' castle song  Easter concert	Timbre, tempo and dynamics  Learn to perform songs about animals and mini beasts to link to topic on 'Habitats'.  Add instrumental accompaniment.	Exploring sounds & Instruments  Explore sounds from sunrise to sunset.  Work in groups to compose piece of music 'Sunrise to sunset'

Skills for KS1	<ul><li>Play tuned and u</li><li>Listen with conce</li></ul>	expressively and creatively be not an expressively and creatively be not an expression and understanding create, select and combine	ly to a range of high-qualit	y live and recorded music		
Year 3	Exploring descriptive sounds  Harvest Festival production  Write a 'Healthy eating' rap to link with Science topic. Perform in groups.	Exploring rhythmic patterns  Focus on topic Romans – perform 'Just like a Roman'  Christmas concert  French songs (in French lessons)	Wider Opportunities  Steel drum lessons provided by Berkshire Maestros (Concert for school and parents at end)	Exploring melodies and scales  Listen to 'Peter and the Wolf' and identify different instruments  Easter concert	Exploring sound colours –  Composing in small groups with theme of 'Our Active Planet' linked to topic so could be an erupting volcano.	Summer production  To be performed at 'The Old Court' in Windsor. Opportunity for children to perform in a real theatre.
Year 4	Rhythmic patterns on percussion instruments e.g. ostinato  Harvest Festival production	Exploring composition & arrangements  Learn song about the Egyptians (link to topic). Add musical accompaniment.  Christmas concert Bells and percussion to be used.	Instruments of the orchestra  History of music – Baroque, Classical etc  French songs (in French lessons)	Melodies and scales  Learn 'Oompa loompa song' to link with Chocolate topic.  Easter concert	Sound colours –  Composing in small groups on theme of 'Water cycle' - linked to topic.	Summer production  To be performed at 'The Old Court' in Windsor. Opportunity for children to perform in a real theatre.
Skills for KS2	<ul> <li>and expression</li> <li>Improvise and co</li> <li>Listen with atten</li> <li>Use and underst</li> <li>Appreciate and underst</li> <li>and musicians</li> <li>Develop an underst</li> </ul>	on in solo and ensemble content ompose music for a range of action to detail and recall sour and staff and other musical r understand a wide range of h erstanding of the history of m concerts across the year.	purposes using the internotes with increasing aural notations high-quality live and reco	related dimensions of m memory	usic	

# Art and Design / Design Technology Scheme of Work

Art and Design or Design Technology is integrated into the whole curriculum. Below are specific areas of focus aimed at developing creativity, skills, and appreciation. The overarching areas support out topic work, but progression is supported by Oak Academy.

#### Aims of Art and Design

- produce creative work, exploring their ideas and recording their experiences
- become proficient in drawing, painting, sculpture and other art, craft, and design techniques
- evaluate and analyse creative works using the language of art, craft, and design
- know about great artists, craft makers and designers, and understand the historical and cultural development of their art forms

### Aims of Design Technology

- develop the creative, technical, and practical expertise needed to perform everyday tasks confidently and to participate successfully in an increasingly technological world
- build and apply a repertoire of knowledge, understanding and skills to design and make high-quality prototypes and products for a wide range of users
- critique, evaluate and test their ideas and products and the work of others
- understand and apply the principles of nutrition and learn how to cook.

	Art and Design	Skills used in Art and Design	Design Technology	Skills Head in Dasign	Skills used in Cooking
EYFS	Expressive Art. Exploring paint, collage, painting, chalk drawings etc	Use a range of tools to make marks on paper. Encourage accurate drawing Experimenting with primary colours, mixing etc	Expressive Design. Construction, Junk modelling, Playdough Modelling for a purpose e.g. bird feeders etc	Handling, manipulating, and enjoying using different materials. Sensory experience, shape, and model scissor control	Cooking across the year
	Art Key skills of Drawing, Painting, Chalk and Crayons		DT Key skills of Structures, Sculpture, Levers, Sewing and Cooking		
Year 1	Literacy - In the Night Sky 'Fireworks' artwork using pencils, wet chalk crayon etching  All about me - Compare variety of famous artists who have drawn portraits Clay models of their faces  Our Wonderful World - Sketch still life	To use a range of materials and drawing tools creatively to design and make products  To use drawing, painting and sculpture to develop and share their ideas, experiences, and imagination.  Extend their observation skills and basic sketching techniques, pencil control	All about me - Woodwork – making stick people using wood and appropriate tools incl sculptures slides and levers  All about Me – Faces around the world including sewing buttons (eyes) etc  Our Wonderful World - natural sculptures	through talking, drawing templates or ICT.  Select from a range of tools and equipment to perform practical tasks e.g. cutting, joining, finishing  Explore and evaluate a range of	Vegetable patch and growing foods Preparing simple foods, comparing tastes etc Baking for key events e.g. mothers, day, Easter etc

	Art Key skills of Shape / Form,	Printmaking and Sculpture	DT Key Skills of Cooking and Pulleys and Textiles/joining	Nutrition, Mechanisms – Sliders	Levers and
Year 2	Explore art using shapes using the work of the artist Picasso  Felt tips/Pastels using individual ideas, exploring art using different shading techniques.  Celebrations - Muslin Prayer mat	About the work of a range of artists, craft makers and designers describing the difference and similarities between different practices and disciplines and making links to your own work.  To develop a wide range of art and design techniques in using colour, pattern, texture, line, shape, form and space.	Toys - Experiment with construction and joining materials to make a toy car from wood & plastic  Celebrations — Sculpt religious artefacts e.g. the star of David and Sikh Sangat  Habitats — natural sculptures, create natural habitats  Visit — Legoland robots	Design purposeful, functional, appealing products for themselves  Select from and use a wide range of materials and components, including construction materials, textiles and ingredients according to their characteristics  Evaluate their ideas/products against design criteria. Use wheels & axils to build structures, exploring how they can be made stronger, stable.	Food from other religions on the visits to places of worship. Cooking simple food for special religious occasions  Healthy living & food preparation e.g. making a fruit salad using https://www.foodafact oflife.org.uk/5-7-years/cooking/ingredients/
Year 3	Celebrations — Sikh Art  Romans — making mosaic, explore works of Art,  Volcanoes — paint volcano collage using textiles  Local Study — accurate drawings of the local area and simple drawing, sketching and painting of still life mediums  Summer Play - Making props/scenery	To create a sketch book to record their observations and use them to review and revisit ideas  To improve their mastery of art and design techniques, including drawing, painting and sculpture with a range of materials e.g. pencil, charcoal, paint, clay  To apply the fundamentals of colour mixing, different size brushes, different techniques and tone for different end results  About great artists, architects and designers in history	Romans – Woodwork make a trebuchet used by Romans. Explore tools sawing, hammering etc. shape, form and create a rigid model using a different adhesive and methods of construction.  Volcanoes - Create an active volcano. Textile Mosaic Volcano.  Papier Mache, links to Science  Visit – Legoland robots	Generate, develop, model and communicate their ideas through discussion, annotated sketches, cross-sectional and exploded diagrams etc. Select from and use a wider range of tools to perform practical tasks. Apply their understanding of how to strengthen, stiffen and reinforce more complex structures.  Understand how key events and individuals in DT helped shape the world.  (Y4) Apply their understanding of computing to program, monitor and control products	Food from other religions on the visits to places of worship  Cooking lessons using https://www.foodafact oflife.org.uk/5-7-years/cooking/ingredients/  Looking at the basics of food preparation and simple cooking experiences

	Art Key Skills of Collage and Tepersonal Sketching Skills.	extiles and Development of	DT Key Skills of Shell, Solid a Electronics – Switches and Ci	nd Combination Structures and F ircuits	Packaging
Year 4	Egypt – Egyptian art, structures etc  Local Study – accurate drawings of the local area in Fifield.  Local study - Developing skills in drawing, sketching and painting of still life mediums  Chocolate - Design packaging for chocolate. Children choose suitable resources.	To create a sketch book to record their observations and use them to review and revisit ideas  To improve their mastery of art and design techniques, including drawing, painting and sculpture with a range of materials e.g. pencil, charcoal, paint, clay  About great artists, architects and designers in history  Explore colour mixing using tint and tone. Choose suitable mediums for the task.	Structures – assemble join and combine materials, look at nets and what makes a structure solid or a shall. Link to Egyptian Pyramids.  Local study – sewing project with local theme  Chocolate and packaging - Making a chocolate gift. (3D) Plan and design. Shape, form and develop. Choose suitable mediums for the task.  Egypt - Egyptian Shaduf. Explore the structure, levers, pully etc  Electronics Links to Science topic where simple circuits are made with a switch. Design a use for this electronic circuit.	To research lots of different structures and make some by using a @D net to create a 3D structure. Compare with famous structure in the world.  Use research and develop design criteria to inform the design of innovative, functional, appealing products that are fir for purpose, aimed at a specific market.  Select from and use a wider range of materials including construction according to their functional properties and aesthetic properties. Investigate and analyse a range of existing products  Evaluate their ideas / products against own design criteria and consider view of others  Understand and use mechanical (Y3) and electrical systems in their products e.g. levers, gears, buzzers, bulbs	Cooking lessons using https://www.foodafact oflife.org.uk/5-7- years/cooking/ingredie nts/  Looking at where food comes from and food commodities  Cooking includes  Making biscuits for the Homeless Making wrappers for chocolate and truffles

Art and Design and Design Technology interlink together as subjects and are taught discretely and as part of our topic.

## Topic based and discrete History and Geography Scheme of Work

The overarching themes in History are ancient and modern rulers (Monarchs), civilisations and acts of commemoration. In Geography they are changing landscapes and sustainable issues, geographical language and contextual knowledge and comparisons.

#### Aims of KS1 History

Pupils should be taught to:

Hi1/1.1 changes within living memory. Where appropriate, these should be used to reveal aspects of change in national life

Hi1/1.2 events beyond living memory that are significant nationally or alobally

Hi1/1.3 the lives of significant individuals in the past who have contributed to national and international achievements. Some should be used to compare aspects of life in different periods

Hi1/1.3 significant historical events, people, and places in their own locality.

#### Aims of KS1 Geography

Ge1/1.1a/1b name and locate the world's 7 continents and 5 oceans. name, locate and identify characteristics of the 4 countries and capital cities of the United Kingdom and its surrounding seas

Ge1/1.2a understand geographical similarities and differences through studying the human and physical geography of a small area in a contrasting non-European country

Ge1/1.3a/b identify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold areas of the world in relation to the Equator and the North and South Pole, use basic geographical vocabulary to refer to key physical features, including: beach, cliff, coast, forest, hill, mountain, sea, ocean, river, soil, valley, vegetation, season and weather and -key human features, including: city, town, village, factory, farm, house, office, port, harbour and shop

Ge1/1.4 Geographical Skills and Fieldwork

		Topic/Theme	History	Skills Used in History	Geography	Skills used in Geography
E .	EYFS					
				commemorational event and how things memory and our Monarchy – the Royal	continents and what are	f facts about London, what are the the main oceans? re recycling, conservation of
	Year 1	All about Me	What has changed? Changes within living memory. Where appropriate, these should be used to reveal aspects of change in national life	Develop an awareness of the past, using common words and phrases relating to the passing of time. They should understand some of the ways in which we find out about the past and how it is represented.	Where have I visited? Understand the geographical similarities/differences of human and physical of UK including seasonal weather etc.	Develop contextual knowledge of the location of significant places, defining physical and human characteristics and how these provide a geographical context for understanding of actions and interdependence.  Focus on London

Using Barnaby Bear, name, locate and identify characteristic s of the four countries and capital cities in the UK and surrounding areas	Celebrations	How do others celebrate? Significant historical events, people and places in their own locality. Church visit	They should ask and answer questions, choosing or using parts of stories, and other sources to show that they know and understand key features of events. Such as Bonfire Night and exploring the festivals in church such as weddings, christening.	Link to Antarctica and Artic and work on Night Sky.	Key facts of continents and oceans to be remembered.
	Time Detectives Tiaras and Turrets	Events beyond living memory that are significant nationally or globally [for example, the Great Fire of London	Develop knowledge where people, events that fit within a chronological framework and identify similarities and differences between ways of life in different periods.		
	Our Wonderful World			Using school to explore the physical and human aspects of our grounds.	Develop geographic skills such as collect, analyses and communicate findings though fieldwork. Interpret sources including maps, atlas etc. Communicate information through graphs, labels etc.
		Key Skills in History are commemorative events and how things have changed in living memory such as holidays and Victorian Toys and Monarchy.		Key Skills in Geography of Villages, Towns and Cities and revisit continents and oceans. Compare Windsor and holiday locations (Brazil)I.  Sustainability key skills are water and energy conservation, gardening and protecting the environment.	
Year 2	Holidays	Events in living memory that are significant nationally, globally	Develop an awareness of the past, using common words and phrases relating to the passing of time. They should understand some of the ways in which we find out about the past and how it is represented.	Name and locate seven continents and oceans using basic geographical vocabulary.	Develop contextual knowledge of the location of significant places, defining physical and human characteristics and how these provide a geographical context for understanding of actions and interdependence.
	Celebrations	Significant historical events, people and places in their own locality. Visit a church and parts of the church.	They should ask and answer questions, choosing or using parts of stories, and other sources to show that they know and understand key features of events such as Remembrance Day.		
	Toys	Investigate toys past and present including Victorian toys.	Develop knowledge where people, events that fit within a chronological framework and identify similarities and differences between ways of life in different periods.		

	Habitats			Understand the geographical similarities and differences of human and physical of UK and another country.	Develop geographic skills such as collect, analyses and communicate findings though fieldwork. Interpret sources including maps, atlas etc. Communicate information through graphs, labels etc.
Year 3		Key Skills in History are learning more about the Roman civilization and the Victorian civilization.		Key Skills in History are locational information on UK and Mountains, Earthquakes and Volcanoes. Sustainability key skills are water and energy management and climate change / protecting the environment.	
	Celebrations	A RE focus on comparing three religions – past and present	Visiting a church, Gurdwara and Synagogue.		
	Romans	Investigate the Roman Empire and the impact they have had on our world.	Pupils continue to develop a chronologically secure knowledge of Britain, and world history establishing clear narratives across time.		
	Local Study	A Local study on Braywood and the school's location and history – Victorians	Pupils start to make connections, contrasts and trends over time and develop appropriate historic terms. They are able to devise suitable questions about change, cause, similarity and difference.	A Local study on Braywood and the school's location and history – Victorians and our school	Use simple fieldwork and observational skills to study the geography of their school and grounds and the key human and physical features of its surrounding environment.
	Our Active Planet			A study of areas of the world which have volcanoes	Locate the UK and some world's countries noting terms such as longitude, equator, climates, physical features e.g. mountains, settlements etc and how man has impacted.
Year 4	Brainwaves	Key Skills in History is Ancient Civilizations with a focus on Egypt. Local Study history in Fifield.		Key Skills in Geography are looking at information about Europe and / or Africa and with a focus on Egypt. Local field trip on Fifield in relation to Windsor.  Sustainability key skills are water and energy management and climate change / protecting the environment Including Rainforest.	
		Based upon learning behaviours  RE / CW study			

	Egyptians Rule ok	Investigate the Egyptian and the impact they have had on our world.	Pupils continue to develop a chronologically secure knowledge of Britain, and world history establishing clear narratives across time.	Egypt – where is it? What type of a country is it and what are the similarities and differences between the UK?	Locate Egypt on a globe and position this country in the world to support our topic.
	Local Study	A Local study on Fifield and its location in relation to Windsor	Pupils start to make connections, contrasts and trends over time and develop appropriate historic terms. They should know how our knowledge of the past in constructed from a range of sources.	A Local study on Fifield and its location in relation to Windsor	Use simple fieldwork and observational skills to study the geography of their school and grounds and the key human and physical features of its surrounding environment.
	Chocolate Yum Yum	The history of chocolate	They are able to devise suitable questions about change, cause, similarity and difference.	A topic related to chocolate, how/where it is produced, climate, manufacture etc Compare Africa and the Rainforest in relation to the production of cocoa.	Locate the UK and some world's countries noting terms such as longitude, equator, climates, physical features e.g. mountains, settlements etc. and how man has impacted.

# Class Curricular Plans

Each Class has its own Cross Curricular Scheme of Work interpreted by the class teacher.

They are available through <a href="https://doi.org/10.2016/jhb.20
